It is said that Senator Gordon is insinuating around the committee-rooms, corridors and lobbies of the Capitol, and perhaps on the street, that BEN HILL is a liar -but it is when HILL is not present. He is careful not to intimate anything of the kind to his face. Is that chivalry?

Ir would be cowardly if not brutal to taunt the slave with his servitude under the law; and it is not much better for the Indianapolis Journal to taunt the people of Washington with folly, because they respond to a call of the National Committee and have appointed two delegates to the by the Committee of Accounts to fold speeches National Convention when they have no and other public documents that are now accumulating, or may horsafter accumulate, in suffrage.

THE New York Graphic pays the National Capital the compliment to say of Washington: "The population of that city is largely "made up of vagrant people." Somebody has been slandering this city to a credulous and careless editor. There are less vagrants in Washington than any city of its size in the country, unless the Graphic enumerates lution had been offered in a Republican Congress in that class.

WHY was the Virginia Republican State hundreds of miles away from the centre of the State, if the people are to have a fair chance in the Presidential contest? Why was it not called at Richmond, which is near the geographical centre of the State? The Indian Office holds a very responsible and delicate relation to the bonor and good name of the Government. It is responsible for the faithful fulfillment of all treaties with the Indian tribes and the honest performance of all contracts entered into for Indian supplies. It matters not so much who manage our Inian affairs as that they shall be managed justly and wisely. Then the Government can defend its policy, while now it is compelled too often to apologize for its defects and unfortunate results. The Indians have been maltreated by the Government through a disregard of treaty obligations-a breach of faith in the matter of contracts for supplies, and a failure to protect their reservations from invasion and depredation. Good faith on the part of the Government toward the Indians is indispensable to peace, harmony and good conduct on their part. These can never be secured until every treaty stipulation is respected and promptly executed, and the Indians are securely protected against the wrongs heretofore practiced upon them by those who in some degree represent the Government in carrying out its Indian policy. The Senate and the Monroe Doctrine. (From the New York Tribune.)

It is evident that the time is at hand when this Government must either do something by rise about the efforts for an Isthmus causi, or make up its mind finally to do nothing. It an now do whatever it pleases, and neither M. de Lessepa nor snybody else will be able to lift a spade against its expression of its will. But if it merely continues to make no sign, foreign capital will get committed, and then fareign governments will be drawn in to protect the capital of their citizens, and the Monsoe doctrine will have disappeared like a

asserted, not \$1,000 of foreign capital could be raised in the interest of any rival scheme. If this subject is to be considered at all, it must be considered at once. M. de Lesseus is in the field. If we make no sign, it is a notification of the control of the co cation to the world that we do not care. Gon-flemen at Washington who think that likely to be a popular course, will find their mistake. Upon the statesmen of the Democratic canons rests the responsibility of earing for the in-terests and the honor of the country in this matter. We believe they think they will have to take up the question some time, but at present they are stopped by the difficulty of at present they are stopped by the difficulty of deciding whether they can afford to involve the Government in the expense of a clerk for the committee to which it should be referred. We have not been used to finding them so slow about grabbing petty offices. If the country should once wake up to the fact that they are now dodging their responsibility and neglect-ing a matter of high National and interna-tional concern, while they display this un-wonted dawdling over one small clerkship, they would hear enough to make them settle the clerkship question, one way or the other, very onlek.

OTIS BROTHERS & CO.,

Builders of the "OTIS" Steam and "HALE" Hydraulic Passenger and Freight

ELEVATORS.

During the past twenty-five years we have constructed the greater part of the first-class Elevator work throughout the United States. Our Washington work may be seen at the U.S. Capitol, the War and Navy Building, Treasury Building, Corcoran Building, Ebbitt House Willard's Hotel, National Hotel, Evans' Building, Metropolitan Hotel, Hamilton House, Republican Building (Census Bureau), Government Printing Building.

We have erected in New York city, and elsewhere, a simple and safe PRIVATE HOUSE HYDRAULIC ELEVATOR, readily operated

We are building the Hoisting Machinery to be used in the construc-tion of the WASHINGTON MONUMENT, capable of raising a load of nine tons to the height of 500 feet. After the completion of the Monu-ment this machinery will operate a Passenger Elevator.

Our Washington Address: EBBITT HOUSE.
